

Agenda
Data Governance Committee
February 21, 2020
11:00 am, BOR

1. Meeting called to order at 11:15 a.m.
2. Zoom meeting with Dr. Christina Tydeman (REL Pacific Director)
 - REL Pacific will assist with Data Governance Work
 - Dr. Tydeman who was the Data Governance Chair of Hawaii's educational system will lead the discussion today
 - Use CEDS data definition. Adapt it to CMI.
 - Dr. Tydeman confirmed that the CEDS regional group will provide support to CMI in its next grant cycle starting in May
 - In the development of CMI's data definition, it is necessary to also develop a data crosswalk.
 - Since CMI's data systems are not integrated, data alignment will address data mismatch and data errors. This will ensure data integrity across systems.
 - CMI will need to identify the one source of information for each data element. Changes to this source should force changes to the other systems that use the information.
 - CMI to plan for ABE and Maritime programs data and how it should be integrated into existing data systems.
 - If students are self-reporting to two different systems (e.g. SIS and FAFSA), one system will often have more accurate information. Some colleges use the FAFSA form as the application form.
 1. Sali will look at other colleges' approach to using the FAFSA form as the college's application form.
 2. Dr. Tydeman will provide examples on how colleges reconcile the FAFSA form with the application form
3. Others
 - No other matters.
4. Meeting adjourned at 12:10 p.m.
